

GENERAL NOTES

1. These drawings were prepared for schematic reference only and do not contain complete specifications, detail and information required for the complete construction of this project. Additional information shall be obtained from the owner or sub contractor the question is in relation to.
2. All construction shall comply with the latest addition of the building codes as well as any amendments and/or ordinances that apply to this construction. Any non-conforming documents discovered by the contractor or his agents shall be brought to the attention of the owner and the designer.
3. These drawings do not contain complete specifications, detail and information required for the complete construction of this project. Additional information shall be obtained from the owner or designer.
4. Unless shown on the drawings, all mechanical work such as, but not limited to electrical, plumbing, heating, air conditioning, ventilating, etc., are to be established and designed by others (than the designer). All site work and landscaping is to be established and designed by others (than the designer).
5. The contractor shall be solely responsible for construction means, methods, techniques, sequences, and procedures required for sole execution and completion of work, and for initiating, maintaining and supervising all safety precautions and programs in connection with the work.
6. Any errors, omissions or inconsistencies on the drawings or variations or ambiguities between these drawings and the actual site and construction conditions and /or requirements shall be brought to the attention of the owner and designer in writing and resolved and documents in writing before continuing the work in question. Failure to notify the owner and the designer in such even will constitute an acceptance of any resulting obligations or responsibilities with regard to delays, costs, code compliance, and legal remedies resulting from this or related work.
7. The contractor shall verify all measurements at the site and be responsible for the accuracy and correctness of the same. Notify the designer of any discrepancies prior to construction.
8. Structural drawings (by others than the designer) shall be worked together with architectural, mechanical, and electrical drawings to locate depressed slabs, slopes, drains, reglets, bolt settings etc. Any discrepancies shall be called to the attention of the owner, engineer, and designer for the resolution before proceeding with the work

- UNLESS NOTED OTHER WISE
1. INTERIOR WALLS ARE 2X4 STUDS
- 2.EXTERIOR WALLS ARE 2X6 STUDS
3. MEASURMENTS ARE TAKEN FROM THE UNFINISHED FACE OF STUDS.
